

## Note to Orinda City Council on Road Maintenance: June 29, 2021

We listened to your discussion of the Capital Investment Plan (CIP) at your last council meeting and were distressed that you continue to ignore the essential needs of over 4,000 Orinda residents while fine tuning the needs of a few. We are talking about the 30 miles of residential streets, home to 1,560 families, about 4,500 individuals, that the City refuses to admit are public streets serving the public and thus refuses to maintain with public funds.

Last November residents voted to tax themselves almost three million dollars a year in order to enhance ESSENTIAL City services, including road maintenance and the storm drains which are part of that maintenance. Well maintained roads are essential to life in a modern community like Orinda for normal services like bringing in the groceries and for emergency services like police protection, emergency medical access and fire protection. Stopping hundreds of feet from the homes of 4,500 Orinda residents is unconscionable. And yet the City continues to do this and makes no plans to do otherwise.

<b>ORINDA ESSENTIAL SERVICES MEASURE</b>	
To help maintain and enhance essential City services, including wildfire risk reduction throughout Orinda, preparation for emergencies and disasters, <b>repair of public storm drains, continued public street maintenance,</b> and other city services, shall the City of Orinda increase its existing one-half cent sales tax to one cent, which would generate approximately \$2.4 million annually for a period of twenty years, with financial audits, public review of all expenditures, and a citizens' oversight committee?	YES
	NO

This lack of service is not accidental. It is not something that has just slipped unnoticed past the City. It has been a well-orchestrated effort by the majority against the minority to enhance the services enjoyed by the majority.

It was first legislated in 1990 with Resolution 56-90 prohibiting cul-de-sacs from applying for public street status; requiring a demonstrated "need for the incorporation of the road into the City's road system for purposes of traffic circulation." It is hard for the residents of a cul-de-sac to demonstrate that their street adds to traffic "circulation".

This policy was then amended in 2018, by some members of this Council (Resolution 59-18, below). The “need-for-circulation” requirement was retained and the only major revision was an additional prohibition to attain public-street-status; the condition of maintenance by an HOA; HOA’s formed to provide street maintenance because the City refused to provide the service. The City forces a response by underserved residents and then legislates a continued denial of service because of the residents’ response. Except for the fact that you actually did this, it would be unbelievable.

Date: September 4, 2018

**Revised Policy for Acceptance of Certain Existing Private Streets into the City’s Public Roadway Network**

City of Orinda Policy Statement regarding Acceptance:

The acceptance of existing, privately maintained roads into the City’s public roadway network shall be by Resolution of the City Council and shall be subject to the following criteria:

- A. The request for acceptance shall be signed by all record owners of fee interest in the road in question. This will apply in all cases where a private road has not been covered previously by an offer of dedication.
- B. Except where the City Council approves an exception, private roads for which a homeowners’ association or similar entity was established for subdivision street ownership/maintenance are NOT eligible for acceptance by the City.  
This excludes from consideration 4 of the 12 private streets not excluded by paragraph D.
- C. The road in question shall directly connect to a Orinda public street.
- D. There shall be a demonstrated need for the incorporation of the road in question into the City’s Public Roadway Network for purposes of traffic circulation which provides benefit to the general public.
- E. Consistent with the City’s General Plan, any road proposed for inclusion in the City’s Public Roadway Network shall be repaired or upgraded, at no expense to the City, to standards that the City has adopted for this purpose, which are as follows:
  - 1. Pavement conditions – improvements shall be made as necessary to the asphalt and/or roadbed to provide a pavement life of 20 years. The roadway shall be in a condition as to not need surface maintenance treatment for a minimum of 5 years.
  - 2. Drainage – adequate capacity of all drainage facilities shall be demonstrated and all damaged and undersized facilities shall be repaired and/or replaced to the satisfaction of the City Engineer.
  - 3. Soil Stability – a soils investigation, by a registered Civil Engineer with the title of “Soils Engineer” or “Geotechnical Engineer” as outlined in section 6736.1 of the Professional Engineers Act, shall be conducted for the

This excludes from consideration 192 of the 204 private streets in Orinda, covering 26 miles and home to 1,405 of the 1,563 Orinda families living on private streets. Note that there are 29 miles of public cul de sacs and loop streets for which there is no “need for the purposes of traffic circulation.” Hopefully, however, these public streets do provide some “benefit to the general public” because tens of millions of dollars of public funds have recently been spent repairing them.

**The impact on the residents of Orinda is significant.**

**The 1,560 homes negatively impacted represent about 22 percent of Orinda’s 7,000 households.**

**They pay \$220,000 in the state gas tax revenues the City receives (22% of \$1,014,500)**

They pay \$110,000 in CCTA return to source revenues the City receives (22% of \$505,430)

They pay \$240,000 in the garbage company fees the City receives (22% of \$1,101,000)

They pay \$630,000 in Measure R revenue the City receives (22% of \$2,853,300)

They pay \$680,000 in Measures J&L revenue the City receives (25% of \$2,712,000 because the assessed value of their homes is 25% of Orinda's property tax base)

\$1,880,000 a year in total taxes, the vast majority of which is going toward the maintenance of roads and storm drains; but not on the roads they live on. An average of \$1,200 annually per household.

And they are forced to pay, out of their own pockets, tens of thousands of dollars to maintain their own streets, replace culverts and other drains that are in many cases force-fed storm water collected and concentrated from "public" roads and drains.

So who does benefit from these funds? Those who live on "public" roads, especially those recently receiving major repairs like Ardor, Bobolink, Daryl and La Espiral. 4,200 families live on Orinda's publicly maintained residential streets (over half on cul-de-sacs just like most of the "private" streets), and benefit about \$450 a year each from the \$1.9 million those on private roads pay annually into the City treasury.

So what is the City doing about this? Nothing. As Council Member Fay reminded the city at the last council meeting, organizing capital improvement projects take a long time. But they never happen if they are never discussed. And there is no discussion about how to equally service all Orindans, especially with Essential Services. There is talk about walking paths an unknown number of people use. There is talk about replacing trees on Brookwood which negatively impact the sensitivities of a dozen or two families despite the fact they were removed to protect their lives and homes from wildfire. There is talk about beautifying a freeway offramp. But no talk about providing Essential Services to 4,500 residents.

Is it because you are unaware of the problem? No. Residents denied road maintenance have been addressing the condition with the City since they first approached the CIOC in May of 2017. Starting in 2018 they have been addressing the Council directly including a petition by 825 residents (below) for the City to take action. A "workshop" was held in August 2019 which

members of the Council attended but did not participate in. Their consultant, Jim Bourgart, presented them with a ten-page report at their October 1, 2019 meeting, with a list of 17 possible items to pursue which, to the best of our knowledge, the City placed in the blue can.

Two years later, in the City's 135 page long CIP for 2020/2025, there is no mention of these 30 miles of streets. Zero. None. We do not exist in the eyes of the City. At a council meeting in 2018 a resident stood up and described herself as a "second class citizen" to which Council Members took great pains to deny. We should be so lucky to be considered as high as second class. We are a ghost class, invisible except for the tax dollars we "donate" so others do not have to.

## Petition to the Orinda City Council Requesting Public Funding for All Orinda Roads

We, the undersigned 825 residents of Orinda, support finding the means to provide fair and inclusive public maintenance funding for all streets in Orinda which provide public access. The City has declared road and storm drain maintenance as essential services. These services should be provided to all residents of Orinda.
